Personal Statement

I am a Junior Developer, currently enrolled in a Full Stack Software Development Diploma with CodeInstitute and actively pursuing an entry into the tech industry. I am an effective communicator with great analytical and people skills. My approach to projects that I have worked on and precision in detail has yielded great results over my working career. I have built many key skills across different areas such as negotiation, customer service and project management. I am looking to challenge myself by looking at helping projects achieve their goals and targets, and being hands on with my approach.

Education

June 2023 - Present	Diploma in Full Stack Software Development Code Institute - Dublin, Ireland, (Credit Rated by the University of west of Scotland)
Sept 2011	SVQ level 3 in Custodial Care Scottish Prison Service

Employment History

Sept 2011 - Present: **Operations Officer**
Scottish Prison Service
HMP YOI Polmont.

Working as an operations officer in the Scottish Prison service has many roles and duties, some of which involved maintaining and operating the CCTV within the establishment ensuring great eye to detail for the smallest things that could have an impact in the near future. Maintaining the security and safety of Individuals in custody, co-workers and third party agencies. Individual negotiation and on-going support to individuals with the single goal of rehabilitating and educating individuals to become successful contributing members of society. Responsible for the team planning around the logistics of transportation of prisoners to ensure the safety of both the prisoner, the staff involved and the public who may potentially be around the individual.

Further work history can be supplied if necessary.
